

## Your Wedding Photography Investment

Each wedding can be as unique as the next, and therefore the photography requirements need to be flexible enough to meet this diversity. To address this need, I have included á la carte pricing to compliment the three packages offered, though the packages do represent a far better value for your investment.

However, no matter which service you decide upon, you will receive the same level of commitment and professionalism in order to create an exciting collection of images, making your wedding day truly memorable. Each wedding I book is photographed personally by myself and never passed on to another associate, thus maintaining the integrity and style of my work throughout the creative process.
